

Finance & Investment Analysis-CodeAlpha

Task1:Stock Analysis Report

The Stock market plays a very important role in the financial markets as it helps increase investor's wealth. This particular task aims at studying and evaluating three best Indian companies through financial analysis.

The Three Companies are as follows:-

- 1.Reliance Industries
- 2.Tata Consultancy Services
- 3.HDFC Bank

Objectives:-

- 1.Learning basics of stock market
- 2.Analysis them on the basis of their financial ratios
- 3.Comparing Investment potential of these and improving various skills along with it such as Excel

Important Data:-

COMPANY	P/E RATIO		
Infosys	16.2		
Tata Consultancy Services	28		
HDFC Bank	15.7		

COMAPANY	MARKET CAPITAL(IN RS.)		
Infosys	477000		
Tata Consultancy Services	1380000		
HDFC Bank	1200000		

Analysis:-

-Reliance

There is a stable rise in the stock price of the company. It has very high market capitalization which means that it has a strong market presence. The P/E ratio indicates moderate pricing and thus makes a suitable investment.

-TCS

It has been observed that the company shows growth along with having a higher P/E ratio compared to others. Thus, it is regarded as a safe investment for its solid standing in the IT industry.

-HDFC Bank

This bank shows stable growth and moderate valuation of shares. It is a secure and safe investment with low risks involved.

Conclusion:-

All three companies have positive trends of growth. While Reliance promises potential growth, TCS offers stability, and HDFC Bank ensures safety.

Diversification of investments is always recommended by experts.
